

Scheda tecnica REF 49.60.37

25.08.2026

Dati generali																																																																																			
Codice	49.60.37	Medicontainer blu590x290x170mm																																																																																	
Unità	pz.	Numero doganale	76169990																																																																																
GMDN	13730	GTIN	04046826053130																																																																																
Classe di rischio	1 (EU MDR)	UMDNS-Code	13-730																																																																																
Classe	1 (EU MDR)	Base UDI-DI	4046826;N003;04;XB																																																																																
Peso netto (kg)	4,080	Istruzioni d'uso	IFU-0003																																																																																
Latex free	si	Istruzioni per la preparazione																																																																																	
Codice CND	S0199																																																																																		
N° di repertorio	219464																																																																																		
																																																																																			
Medicon media																																																																																			
Immagine completa		Immagine dettagliata

Misura	590x290x170mm	Rivestimento	Strato di ossido artificiale (colori di interferenza) sulla superficie dei prodotti in alluminio																																																																																
Condizioni di conservazione																																																																																			
Non sono necessarie condizioni particolari di conservazione																																																																																			
Materiali																																																																																			
	N° di materiale (Denominazione DIN)																																																																																		
Corpo	3.0255 3.3535 3.3315 (Al 99,5% + AlMG3 + AlMG1)																																																																																		
Manico	1.4301 (X5CrNi18-10)																																																																																		
Altro	SILIKON (Poly(organo)siloxane)
